No: DD/SSU/COVID-19 SOPs & Guidelines/42 part (A)/2020-21

Date: 22.7.2020

CIRCULAR

Subject: Sample collection centres/labs/fever clinics, etc. to provide information regarding what person needs to do if he/she tests positive for COVID-19

It is important to inform the persons giving samples for COVID-19 testing, that he/she should strictly self-isolate till the results are communicated. If the person tests positive he/she shall do the following:

1. Continue self-isolation
2. For medical triage/consultation, call free helpline Apathamitra 14410
3. Dial 108 ambulance/ 1912 helpline to visit the nearest health center/hospital (government or private) for medical triage/consultation
4. The person shall be given information regarding different facilities available. Based on medical triage, the person may be allowed home isolation/home care or Covid Care Centre (CCC) or Covid hospital
5. The person shall follow the medical advice received for further management

Annexure regarding patient flow chart is attached which shall be displayed at all sample collection centres, fever clinics, labs etc. and a copy may be given to the patient.
