**Subject: To provide test report to the person/patient concerned - regarding**

Madam/Sir,

Whereas it is important to maintain confidentiality for the people who are affected by COVID-19 so that they do not face any discrimination; for the person concerned who had undergone testing, it is her/his right to know the outcome of the test result be it positive or negative.

Therefore, the test result/report should be provided to the person in quarantine centre or COVID Hospital as and when the result becomes available. Please find enclosed the guidance note in this regard.

Yours faithfully

  
(DR. VIZOLIE Z. SUOKHRIE)

**GUIDANCE NOTE ON TEST RESULT INFORMATION TO PATIENT/PERSON**

1. The test result as and when available will be shared with the patient / person who is tested in the format given in Annexure 1.
2. The report as provided in this Annexure 1 is expected to be honored by the community as documentary evidence. If any patient/person requires the test result generated from the testing laboratory, they will send a request to his/her facility in-charge in writing mentioning the WhatsApp number where she/he wants to receive the report. The facility in-charge will be responsible to provide the report with other names erased/hidden. Individual original hard copy may not be possible at this juncture when the volume of tests performed is high.
3. The healthcare worker on duty will provide counseling while providing the test result. On discharge, proper advice on home quarantine and other safety measures will be given. This is in addition to the counseling which is provided telephonically by counselors.
4. The COVID facility in-charges are to instruct the frontline workers to provide all necessary information which are due to the returnees/patients like the status of sample testing, the quarantine protocol, medications, do's and don'ts etc to avoid untoward situations. The information flow should always be kept open for any complaint / grievances.
