Memo No. HPH/9M-21/2020/91

April 16, 2020

ADDENDUM

Containment and Treatment Strategies in COVID-19 Hi-Risk Spots

With reference to the Memo No. HPH/9M-21/2020/87 dated 13.04.2020, please note the following addendum:

The para (d) "Swab samples be taken for all symptomatic contacts whether in hospital isolation or institutional quarantine" shall be substituted by the following:

"(d) Swab samples be taken for all symptomatic contacts, and all asymptomatic direct and high-risk contacts of a confirmed case as per ICMR's guidelines, and in clusters/quarantine centres, as deemed fit by the local administration".
